1. The first group of authors (e.g., [1, 2]) considers the problem of the stability of the motion of a system of particles in a magnetic field. The authors of [1] show that the motion of a system of particles in a magnetic field is stable if the magnetic field is sufficiently strong. The authors of [2] show that the motion of a system of particles in a magnetic field is stable if the magnetic field is sufficiently strong and the system is sufficiently small.
